MACOS Version

For the MACOS version, download two files: **SafeExamBrowser.dmg** and **SEBClientSettings.seb**. First, run **SafeExamBrowser.dmg** to install the SEB software. After the installation is complete, run **SEBClientSettings.seb** to import the configuration.

After completing the installation, use the MACOS search tool (Finder) to find the full software name: **Safe exam Browsers** to use the software.

WINDOWS Version

Download and run file SEB_3.8.0.690_AutoSettings in windows folder.

Click **next** or **yes** as requested by the software and wait until the software is installed. Note that you must be connected to the internet during the installation process.

After completing the installation, use the search tool and search the full software name: **Safe exam Browsers** to use the software.
